DEV MILAN MEHTA

mehtadev01@gmail.com | **+919660643214** | https://github.com/devmehta01 | https://www.linkedin.com/in/dev-mehta-449aab1b0/

EDUCATION

- **Malaviya National Institute of Technology, Jaipur** (August, 2018 – Present)
  B.Tech in Computer Science and Engineering **CGPA: 7.48/10.0**
  Coursework: Machine Learning, AI & Expert Systems, Data Structures, Object Oriented Analysis and Design
- **Abu Dhabi Indian School** (August, 2016 – May, 2018)
  12th Grade, Computer Science **87.4%**
  10th Grade **9.6/10.0**

WORK EXPERIENCE

- **Deep Learning Research Intern** (March, 2021 – June, 2022)
  (MNIT Jaipur) – Advisor: Dr. Lavika Goel
  -Working on a project 'Lung Cancer Detection using Deep Learning' and have achieved 94% accuracy. Currently working on adding more features and web deployment for use by everyone.
- **Deep Learning Intern** (April, 2021 – June, 2021)
  (Codespeedy Technology Private Limited)
  -Created various models which do sentiment analysis on movie reviews using scikit learn. 🔗
- **Artificial Intelligence Intern** (January, 2021 – February, 2021)
  (Widhya)
  -Created a Movie Recommendation system using cosine similarity.
  -Built a KMeans model to predict skill level after gathering data from resumes and clustering the skills
  -Built a model for Flight Delay Prediction using Decision Tree Classifier giving 88% accuracy.
- **Machine Learning Intern.** (September, 2020 – October, 2020)
  (Codespeedy Technology Private Limited)
  -Created an English to French Translator using an LSTM model using TensorFlow and Keras. 🔗
  -Created a Traffic sign classification system that can be used in Self Driving cars using TensorFlow and Keras. 🔗
  -Created an Image noise reducer using auto-encoders using TensorFlow improving quality by 20%. 🔗

PUBLICATIONS / RESEARCH PROJECTS

- Sanskar Soni, Dev Mehta, Vinush Vishwanath, Aditi Seetha, Satyendra Chouhan, "DiPD: Disruptive event Prediction Dataset", arXiv preprint, ***https://arxiv.org/abs/2111.15629*** – 25 November 2021
  Extracted tweets belonging to disruptive event and non-event category using keywords. Also performed pre-processing.
- Dev Mehta, Sanskar Soni, Vinush Vishwanath, Aditi Seetha, Satyendra Chouhan, "Disruptive Event Prediction". (Ongoing)
  Extracted tweets and created a classifier that classifies tweets into event and non-event with 94% accuracy. Further created a clustering model to cluster the event tweets based on similarity. Now working on a continuous learning model and a dashboard to display disruptive tweets.
  This project will be presented in the Department of Science and Technology, National Supercomputing Mission (DSTNSM).
  Currently working with a professor along with my team on a project assigned by the Government of India and IISc Bangalore. The project aims to build a platform for disruptive event prediction based on continual learning.
- Dev Mehta, Satyansh Mishra, Lavika Goel, "Lung Cancer Detection using Deep Learning". (Ongoing)
  Built a model which gives around 94% accuracy on the Luna16 dataset. Currently working on its deployment and will then be published in a journal.

ACADEMIC PROJECTS

- **Facial Expression Recognition using Keras and OpenCV.**
  Created a Convolutional Neural Network model to detect and display facial expressions found in any video. 🔗
- **Image classification implemented using CNN with Keras and TensorFlow.**
  Created a Convolutional Neural Network model, trained it on the CIFAR-10 dataset and then tested it on the test set as well as tested on any random image from the internet to classify it into one of 10 classes. 🔗
- **Restaurant Management System (Object Oriented).**
  Admin can add and remove items from the menu and also change prices. Customers could order from the menu and also get a bill at the end of service. 🔗

- **Hotel Management System (Object Oriented).**
  Professional login page for admin. Admin can add and remove different types of rooms and change prices. Customers could book different types of rooms, extend their stay and also get the bill at the end of stay. 🔗
- **Created a basic school website.**
  User can view basic information and images and go to different hyperlinks. Used features such as marquee text.

TECHNICAL SKILLS

- Programming Languages: **C, C++, Python, Java, MySQL**.
- ML: **TensorFlow, Keras, OpenCV, Numpy, Pandas**

CERTIFICATIONS

- Machine Learning – **Stanford Online**
- Machine Learning A-Z in Python - **SuperDataScience**.
- Deep Learning Specialization - **Deeplearning.ai (Stanford)**. (5 courses)
- TensorFlow Developer Specialization – **Deeplearning.ai**. (4 courses)
- Generative Adversarial Networks Specialization – **Deeplearning.ai**. (3 courses)
- Artificial Intelligence Master Course – **SuperDataScience**.
- Image & Video Basics with OpenCV and Python
- SQL for Data Science – **University of California, Davis**.
- Programming for Everybody (Getting started with Python) – **University of Michigan**.
- Ethical Hacking from Scratch - **ZSecurity**.
- Advanced Network Hacking - **ZSecurity**.
- Social Engineering - **ZSecurity**.
- Website Hacking & Bug Bounty Hunting - **ZSecurity**.

SCHOLASTIC ACHIEVEMENT

- Participated in a successful **Guinness World Record** Attempt
- **3rd place** in Scholars cup MNIT.
- **Highest scorer** in 8th semester **Deep Learning** course and 1st semester **computer science** course.
- **Grade 12 School topper** in Computer Science with a score of **99/100**.
- **Distinction** in Math and English in the **International Benchmark Test** in 2014.
- **First place** in club meeting **twice** in **Toastmasters**.
- **WON second** place & **third** place in **Toastmasters** (District level).

POSITION OF RESPONSIBILITY

- **Mentor** for deeplearning.ai on Coursera
- **Member** of Knowledge Representation and Learning Research group at MNIT.
- **Volunteered** at TheraView
- **School Prefect** of my school ADIS.
- **Cultural Secretary** of my school ADIS.
- **Media Coordinator** of Toastmasters club.
- **Core team member & Choreographer** of Rambha Samba dance for **BLITZSCHLAG fest** of **MNIT**.
- **Choreographer** & **Lead Dancer** of Annual day and Talents day in school.
- **Volunteered** in NEORUN 2016.

EXTRA CURRICULAR-ACTIVITIES

- **ATHLETICS** - WON 3 gold, 1 silver, 2 bronze in intra school athletic meet.
- **FOOTBALL** - WON 1 silver in intra school Football meet.
- **SWIMMING** - WON 1 gold, 3 silver in Intra School swimming meet.
- **QUIZ** - WON 1st place in inter school quiz competition.
- **DANCING:**
  - WON 2 gold, 2 bronze in Talents day in school.
  - Choreographed and Participated in Blitzschlag fest in 2018 and 2019
  - Choreographed and Participated in IIT Bombay cultural fest (Mood Indigo) in 2018
  - Choreographed and Participated in IIT Roorkee cultural fest in 2019
- **MUSIC:**
  - WON 2nd place in Rhythms carnival for keyboard.
  - Completed level 1 keyboard training organized by Trinity College London.
  - WON 3rd place in Intra School singing competition
- Participated in YAS RUN 3km marathon.
